Complementos y Accesorios Accessories & Fittings

Copreci, en su compromiso de ofrecer siempre al cliente la más alta gama de producto, ha desarrollado complementos específicos para todos y cada uno de sus componentes. Tanto en el campo de los sistemas de encendido como en el de la seguridad termoelectrica, Copreci ofrece sistemas que, al estar específicamente diseñados para sus componentes, le aseguran la calidad de producto, las prestaciones del conjunto y la seguridad de estar trabajando con los líderes del mercado.

Copreci, a company committed to always offering customers top-range products, has developed specific accessories for all its components. Both in the field of ignition systems and in that of thermoelectric safety devices, Copreci offers systems, specifically designed for its components, that guarantee product quality, overall features and the security of working with the market leaders.

Seguridad Termoeléctrica

Thermoelectric Safety Devices

La larga experiencia de Copreci en el campo de la seguridad termoeléctrica, ha llevado a Copreci a ser pionero en la introducción de la seguridad, tanto desde el punto de vista de nuevos productos y desarrollos, como desde el punto de vista del asesoramiento y análisis de la situación particular de cada cliente.

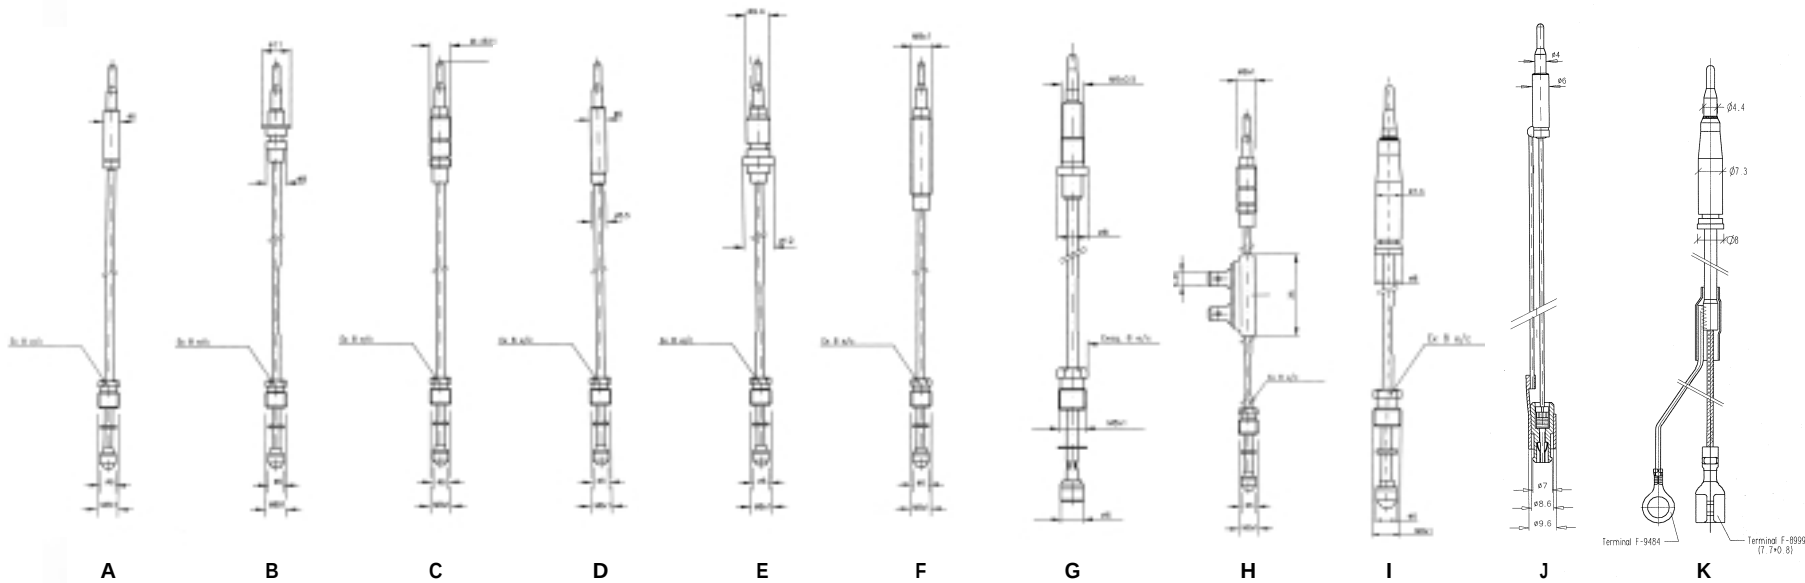

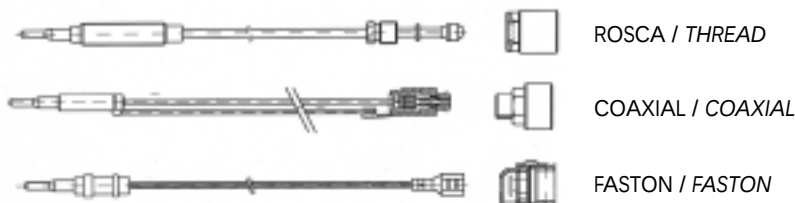

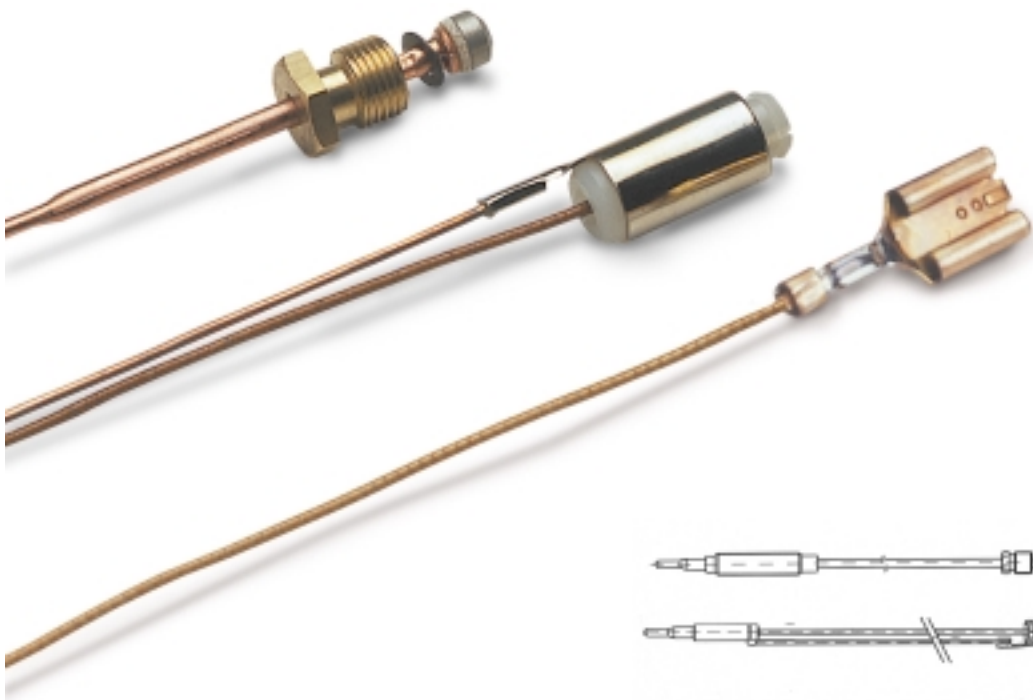

Copreci ofrece al cliente, por una parte la extensa gama de termopares y accesorios de fijación que compone el catálogo actual (diferentes conexiones, medidas, de hilo o de cobre, etc.) y por otra, su equipo de ingeniería, con el fin de desarrollar el componente que se adecúe perfectamente a sus necesidades.

Copreci's extensive experience in the field of thermoelectric safety devices has made the company a pioneer in the introduction of safety, both from the point of view of new products and developments, and from the point of view of advice about, and analysis of, each customer's particular requirements.

Copreci offers its customers, on the one hand, the wide range of thermocouples and fixing fittings in its current catalogue (different connections, sizes, wire or copper,...etc.) and on the other, its engineering team, in order to develop the component best suited to their requirements.

Sistemas de Encendido

Ignition Systems

Copreci, siendo consciente de la importancia que ha venido adquiriendo los sistemas de encendido, a la hora de los nuevos diseños, pone a disposición del cliente la más variada gama de complementos de encendido: catenarias de 2,3,4 o más switches, switches individuales de pulsado y de giro, soportes para 1,2 y 3 switches para termostatos, clips de fijación, etc.

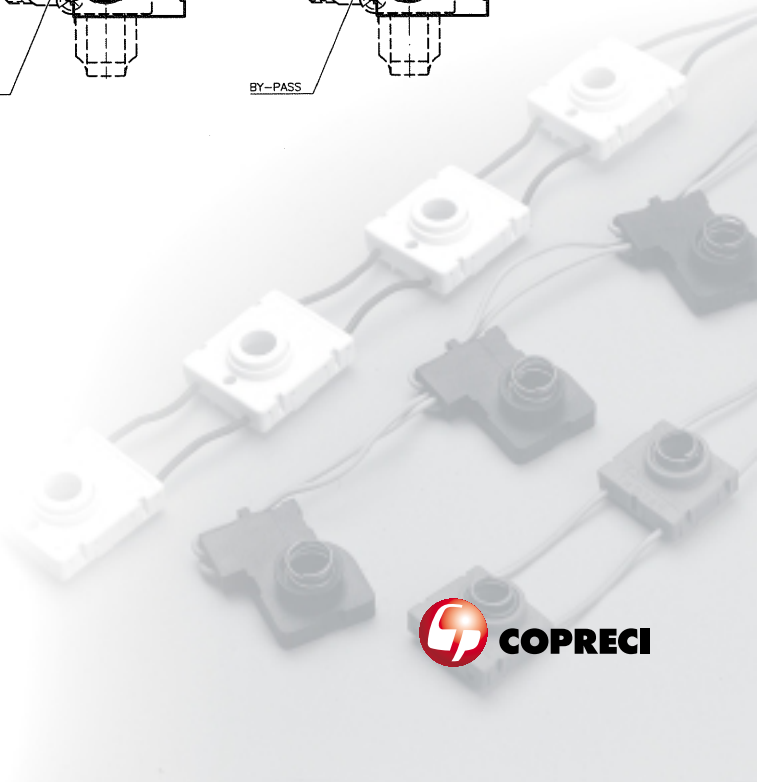

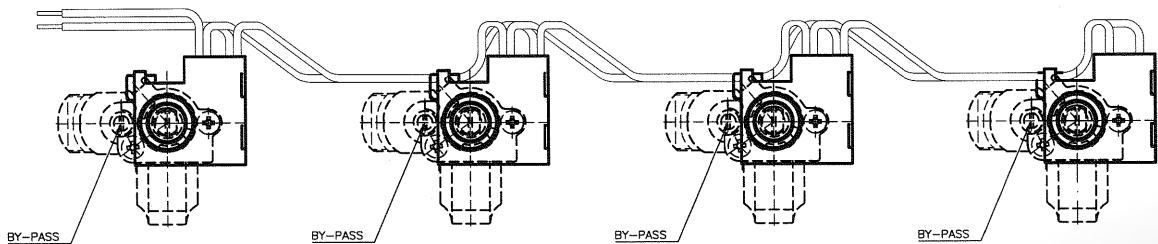

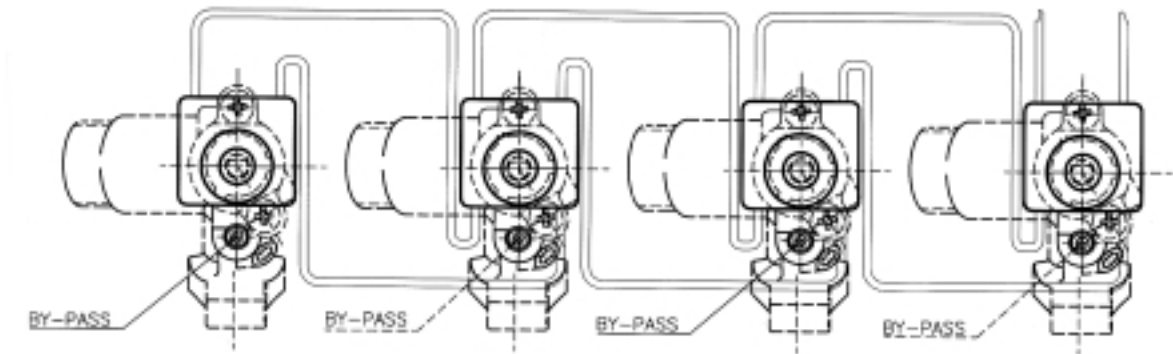

Copreci ofrece diversas soluciones para cada uno de sus componentes, y la experiencia de un equipo de trabajo que ha sido copartícipe de los últimos desarrollos.

Copreci, aware of the increasing importance of ignition systems in new designs, offers customers the biggest range of ignition accessories: catenaries with 2, 3, 4 or more switches, individual push or rotation switches, supports for 1, 2 and 3 switches for thermostats, fixing clips, etc.

Copreci offers different solutions for all of its components, as well as the experience of a team that has participated in the latest developments.

Copreci le proporciona una infinidad de accesorios que son importantes para la correcta utilización de los componentes de gas: bridas de amarre de uno y dos tornillos, específicamente diseñados para los componentes de Copreci, tuercas, tuercas de conexión rápida, tornillos, biconos, racores, juntas de estanqueidad, etc.

Copreci le ofrece todos estos accesorios con un compromiso de calidad contrastada y la seguridad de haber sido testados positivamente en los laboratorios de Copreci.

Copreci can provide you with an infinite range of fittings that are important for the correct use of gas components: clamp flanges with one or two screws specifically designed for Copreci components, nuts, rapid connection nuts, screws, olives, connectors, leaktight seals, etc.

Copreci offers all these fittings with guaranteed quality and the knowledge that they have been positively tested in Copreci's laboratories.
